AUSTIN/JONES CORP.
GENERAL CONTRACTORS

EXPECT SUCCESS

As critical as it is to the success of any property improvement or modification, expert project management remains a core competency we practice for all our clients. Austin/Jones Corp. has developed a custom process to manage construction services to fit every project scenario, big or small.

With over 30 years of experience as a General Contractor, our services have driven innovation and process efficiencies, and, in turn, continue to lower our operating costs without compromising the construction project's integrity or our clients' satisfaction.

We specialize in all aspects of the construction spectrum within several diverse markets. We are licensed and registered in the most states in the Western US, with offices located in California, Hawaii, and Washington.

At its core, Austin/Jones Corp. offers a cohesive **TEAM**, high **QUALITY** workmanship, and the most **RELIABLE**, safe, consistent processes in the industry.

READINESS

Not all construction providers are created equal. Austin/Jones Corp. has earned a reputation as an industry leader in all areas of construction through inspired leadership and collaborative problem solving.

We utilize the latest and greatest in information technology to ensure effective communication across the entire project team. Our extreme attention to detail in self-performance of trades enables us to contain costs and guarantee unparalleled quality.

Throughout our organization, we emphasize versatility, adaptability, continuous learning, and the elimination of information silos. Our teams of experts truly are greater than the sums of their parts.

Big picture, we elevate our communities and the construction industry by focusing on safety and wellness, innovative technologies, training and education, rewarding internship experiences, and charitable giving.

Our mission to exceed all our clients' expectations guides us in everything we do. Our service extends far beyond the sale. From inception, Austin/Jones Corp.'s success has depended on repeat clients who come back again and again to ensure that their projects are managed successfully, from pre-construction to closeout.
